Precious Cargo

Live in the golden age every day by dolling up your living space with some karat-filled character. Here's some serious gold to rush after.

By Melissa Larsen

1. BOXY BULLION

With its mirrored veneers and gleaming golden trim, the antique-inspired Gold Mirrored Chest (\$1,299) is the fairest of them all. 877.944.9888, www.horchow.com.

2. GOLDEN THRONE

Gilded in 22-karat yellow and white gold, the custom Dolphin Chair, one of four in the Italian Grotto Chair collection, is the visual definition of sitting pretty. www.manheimruseau.com.

3. SCREEN SHEEN

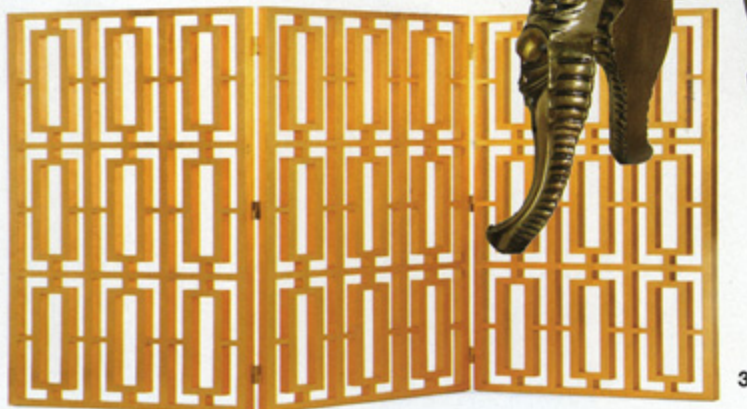

Slip into your favorite fashions (Armani, perhaps?) behind this geometric Tudor Screen (\$11,250), which is plated in gold leaf. 212.334.1271, www.armanicasa.com.

4. LET IT ALL SINK IN

King Midas would certainly have had his hands full with this bathroom-based beauty: The Pure Gold Sink is swathed in 23-karat gold. www.alchemy-glass.com.

5. HIGH-STYLE TILE

Each dazzling, handmade Davlin Tile (about \$130 per square foot) comprises fine European gold leaf sandwiched between two pieces of glass. www.annsacks.com.

< Fine Levine

Manheim-Ruseau is no stranger to fine furniture; it has long been one of the industry's leaders in custom craftsmanship and sensational design. Now, the company is taking a contemporary turn with the introduction of its **Douglas Levine Collection**. 972.387.4578, www.manheimruseau.com.

Storybook Living >

Inspired by medieval England and a fairytale bearing a very similar name, Philippe Starck's **RobinWood Deluxe Collection**, designed in collaboration with Sutherland, melds cool aluminum with warm woods for a whimsical-yet-classy look. The line, which features pieces playfully named Sherwood, Marian and Loxley, includes chairs, side tables, alfresco furnishings and more. www.sutherlandfurniture.com.

^ Chain Reaction

When Terzani, one of Italy's top luxury lighting manufacturers, recently paired with Barlas Baylar of Hudson Furniture, we knew the result would be spectacular—and we were right. **The Atlantis Chandelier** (\$30,000) comprises four miles (four miles!) of nickel chain that has been delicately draped into waterfall-like contours. 212.645.7800, www.hudsonfurnitureinc.com; www.terzani.com.

Lone Star Luxury

Bursting with original furniture designs and worldly art, including a permanent art installation, Dallas's newest hotel is the destination for design enthusiasts. Interior design extraordinaire Adam D. Tihany, the genius behind the **The Joule, a Luxury Collection Hotel**'s luxe look, is also responsible for the inventive interiors (featuring, of all things, stainless steel turbines) of the hot spot's fine-dining restaurant, Charlie Palmer at The Joule. www.luxurycollection.com/joule; www.tihanydesign.com.
